

Our Approach

PHASE-LM has a very progressive approach to training.

The dynamic and interactive courses focus on the use of practical skills rather than being overly theoretical, thereby maximizing the individual's confidence in their role.

With a professional career background in emergency medical care, the PHASE-LM instructional team is uniquely qualified to provide training with a depth of experience rarely available, this includes;

- Ø Consultant Anaesthetist
- Ø Registered Paramedics
- Ø Advanced Trauma Life Support Doctors
- Ø Advanced Cardiac Life Support
- Ø Resuscitation Training Officers
- Ø Health & Safety Approved First Aid Instructors
- Ø Light Rescue Technician
- Ø Diving Medicine Experts
- Ø Member of the Institute of Occupational Safety and Health (IOSH)
- Ø BASICS Qualified Doctors
